

Car Sharing &

Sustainable Mobility

Session 1

6 February 2002, Bologna

Car Sharing in Practice

Intelligent Service for Sustainable Personal Mobility
6 Feb 2002 in Bologna

The European Perspectives on Car Sharing

Lasse Buschmann Nielsen

European Commission - Directorate for Information Society - Transport
and Tourism

- Introduction
- Social Profiling
- Technologies / Services
- Conclusion

- Preferred music to listen to
- Smoker / non smoker
- Animals / no animals
- Allergy – special needs
- The smell of other people
- Wearing distinct perfumes or not
- Type of car / car features
- Leg Room / Load / Size
- Image – are you placed in a group of people that you do not want to be compared to, social skills / capabilities
- How a person will react, if one of the requirements is violated (for example, the willingness to wait for a car or get compensated, if no car is available as planned)
